

# Alarm Remote

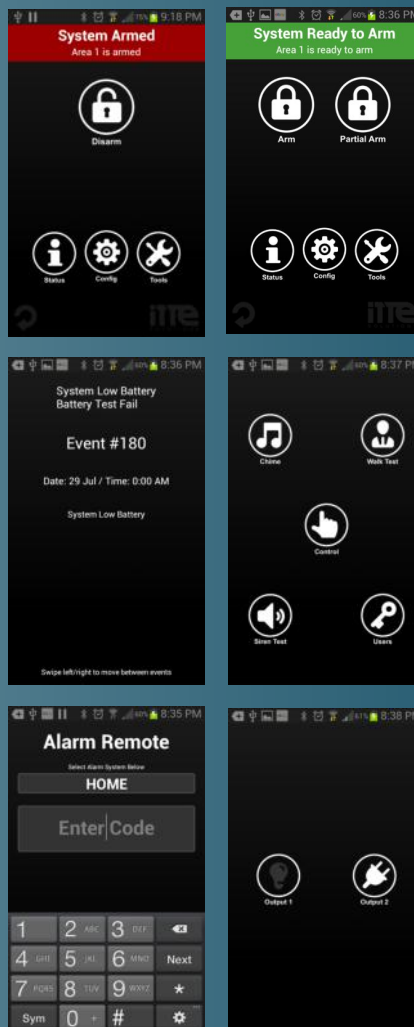

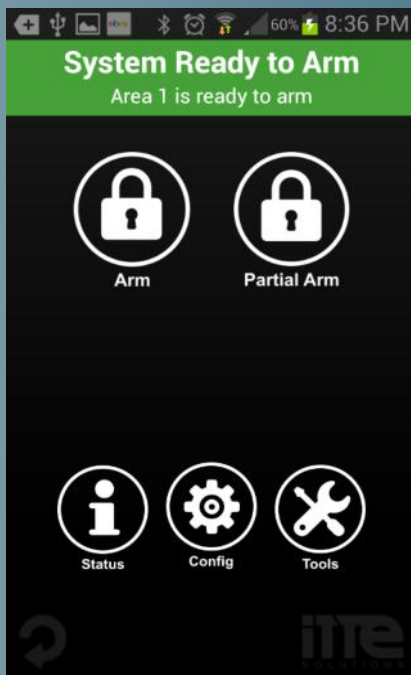

Alarm Remote gives Hills Reliance and Networkx (NX) users instant remote access to their security system. Alarm Remote allows users to arm and disarm their system remotely. Providing alarm history information remotely at your fingertips.

Control your DAS Hills Reliance or Networkx (NX) alarm system from your phone!

## Why Use an App?

- If you forget to arm the system before you leave, you can do it remotely
- To remotely disarm the system to allow service professionals to enter a property
- See the current status of the alarm system
- See if any system errors have occurred

...and so much more!

## Alarm Remote Features:

- Full and partial arm and disarm
- View system alarm history
- View system errors
- Multiple system support
- Control multiple areas
- Siren test
- Walk test
